

ON THE OUTSIDE OF THIS ISSUE.—First Page—Anna Milnor.—Last Page—Not a bad joke.

The principles and objects of the Republican party, are only necessary to be properly understood, to secure the approbation of all fair-minded, intelligent men at the North; the respect of all, and the support of many, of the same class at the South. Christened abolitionists, by interested parties; the imputation of a disregard to our Constitutional obligations has gone forth against us, and many alarmed by this fabrication have hesitated to come to our standard, who, when they ascertain that we thoroughly repudiate the idea of interfering with the existing institutions of any sister State, and that this is the only truly conservative party, will heartily unite with us in our efforts to prevent the extension of Slavery into territories now free. "Slavery is a great social, moral, and political evil; most men at the South, as well as at the North, concede the truth of this proposition. But when we consider the question of Slavery at the South, we have to confess that we can see many difficulties in the way of its immediate abolition, and feel relieved by the conclusion that we are neither responsible for its existence or its continuance. When the Slave holding States seek to force upon us a share of the responsibility of extending an institution fraught with so much that is evil into the territories which belong to all the States, we must resist the assumption of this responsibility, by doing all that is in our power to do, to hem in, and surround the Slave, by free States, hoping that the example and moral influence of these, will be such as to induce, in some form, the ultimate abolition of Slavery in all the States. In Kentucky, and Missouri there are already many friends of emancipation. The near proximity of free States enables the people of these by comparison to draw many powerful arguments in favor of freedom and against Slavery—while Slave States are discussing the questions of emancipation, we ought not to burden the friends of freedom then, by riding in creating new Slave States.

Correspondence of the News.

NEW YORK, April 30th, 1857.

Are the readers of the *Daily News* aware how many separate and distinct newspaper publications are issued in this city. The whole number is about one hundred and fifty, including sixteen daily papers. There are 6 German papers, 2 Welsh, and of French, Spanish and Italian, one each. Also, some half dozen intensely Irish papers, brim full of Sham Democracy, and of "wrath and cabbage" against the State Legislature and the Republican party. Of the old stock of daily papers, published here twenty-five years ago, only four survive, viz: the *Courier & Enquirer*, *Evening Post*, *Journal of Commerce* and *Commercial Advertiser*. The first two are decided advocates of the Republican organization; the third an unscrupulous upholder of Old Buck, Border Ruffianism, and Judge Taney's Dred Scott decision; and the fourth, a "highly respectable" relic of the late Whig party, whose managers seem to be somewhat in the predicament of the great man who asked, "where am I to go?"

The *Courier*, and *Journal of Commerce* are what may be termed bed-blanket sheets as to size, and have a large run of lucrative advertising; but I suspect they do not produce a tithe of the influence upon the public mind that is exerted by their comparatively new competitors, the *Tribune*, *Times*, and *Herald*—the two former being among the foremost advocates of Republican principles, and the latter a species of political and moral Inimic, "whose hand is against every man" engaged in the reformation of social and civil wrongs, and the progressive elevation and improvement of society.

The *Express* is "American" to the backbone, and affects to be a leader of the movement; but it lacks, in my opinion, the essential requisites of integrity, prudence, and sagacity for the post. The *Sun* is the oldest of the penny papers, and enjoys a fair advertising patronage, and a large circulation. Its long accustomed political neutrality is measurably laid aside in behalf of Old Buck and filibusterism.

The *Day-Book*, *N. Y. Daily News*, *Mirror* and *Register*, complete the list of dailies, with the exception of those in foreign languages. The *News* and *Day-Book* call themselves "Democratic"—that is, they go in for all the Nebraska swindles, Border Ruffianism, &c., of the last and present Federal administration. They care no more for truth and justice than Satan does for holiness. The *Day-Book* is intensely scurrilous, and a base dirt-eater for the slave-drivers. The *Mirror* and *Register* are only respectable cyphers—and a tight match for that. They have both tried to be Republican, but didn't seem to make it out—so they are twaddling "all round Robin Hood's barn, and back again" to very little purpose, for nobody can be simple enough to bid anything for their advocacy.

There are some twenty religious and semi-religious journals, and upwards of one hundred magazines and other periodicals, (including eight re-prints) published in this city.

The infamous Walker bubble, down on the isthmus, which has been so perseveringly blown up, by reckless and unprincipled parties here and elsewhere, seems at last to be pretty effectually exploded. The Steamship Illinois, which arrived here yesterday from Aspinwall, brings intelligence of what may be regarded as among the final proceedings of the filibuster chief and his followers. So, this base and villainous attempt to seize on the territory of this Isthmus and convert it into a Slave State for "our glorious Union," has failed for the present. It is a shameful fact in our history; that the Federal Administration, though pledged by solemn treaties of friendship and justice to the people of Central America, has all along connived at this miserable crusade for the purpose of robbing and murdering them by wholesale! Repeated expeditions of men and munitions of war have sailed in open day from New Orleans, boldly proclaiming their purpose of going to Walker's aid,—and no U. S. Marshal, District Attorney, or other Officer has raised a finger or said a word against it! Is not this a nice government?

And now we are like to have another filibustering expedition from California into Mexico—perhaps half a dozen of them.—The Illinois brings word of the organizing of various companies in the Golden State to proceed into the territory known as the Gadsden purchase, and thence probably into the State of Sonora—plunder and land piracy being their undoubted objects. And who is to prevent the "Sovereign people" of California from going whither it seems good in their own eyes? Not the U. S. Authorities, I warrant you. The great land pirate, "General" Walker, made his first expedition from California. Who shall say that his illustrious example may not be imitated?—Oh, we are bound to have Cuba, and the rest of Mexico; and some other Walker will doubtless arise, ere long, to lead our conquering idlers and marauders to the establishment of Slaveocracy "democracy" in Central America.

The injunction, procured by Mayor Wood to stay proceedings on the part of the New Police Commissioners, has been dissolved by Judge Davies of the Supreme Court, on the ground of informality.—Judge D. giving no opinion as to the constitutionality of the law. The Mayor will have to try again.

There is a good deal of excitement, and no little indignation, among the liquor dealers of the city—whose name is Legion—in reference to the highly stringent License law passed by the late Legislature—the effect of which act, they say, will be, if carried out, to embarrass and reduce their business to a ruinous extent. They have held two or three meetings, and raised a large fund for the purpose of testing the constitutionality of the law, and overthrowing it if possible. They consider it very little if any better than the Maine law.

On Tuesday evening, a prepared address was given by the Rev. Dr. Bellows (Unitarian) at the Academy of Music, on the subject of Theatrical amusements, their nature and tendency, with suggestions for their moral improvement, and some remarks on the position of the church and clergy in regard to the democratic profession. The address was long and able. Some fifty or sixty actors were present, and a considerable audience of intelligent and religious citizens of various persuasions.

RAMBLER.

The Organization of the General Assembly.

MR. EDITOR:—In reading a communication in your columns this morning, entitled "The Organization of the General Assembly," although we agree with the writer in many respects, we are convinced in others he takes an erroneous view of the wishes of the majority of our citizens.

Your contributor says, "So far as we have been enabled to ascertain the views of the members elect, we think that there is a disposition to restore the Government to that policy which ruled it anterior to the last five or six years. If we are correct, upon this point General Greene will undoubtedly be tendered the office of Speaker, &c." Whilst we concur in all the views expressed as to the Hon. A. C. Greene's qualifications for that position, yet a fair and equal distribution of the offices to the different portions of the State, is one of the elements of our future political success as a party.—The City of Providence has already monopolized a large proportion of official appointments, and to secure a well balanced arrangement of the remaining ones, it appears to us just and proper to elect a Speaker for the incoming House of Representatives from the north part of the State.

The immediate vicinity of Providence already embraces amongst its residents, the Governor, Secretary of State, Attorney General and State Auditor, as well as both of our United States Senators; whereas, the northern towns are represented by but one officer holder of importance, the Hon. William D. Brayton, Member of Congress elect, from the Western District, the Speaker of the present House, the Hon. Benj. G. Thurston is a citizen of Providence, and two out of the four clerks are residents of that city. Whatever may be their feelings of personal respect for General Greene, and admiration of his bright political record, we think the voters of the State at large will see the obligations they are under to bestow some Office of dignity and trust upon the Northern part of the State, and we

know that General Greene himself, will cheerfully concur in such an intention and assist by all the means at his command in advancing any move of this nature, that will unite all the different local interests of our State, and prevent those unfortunate jealousies and heart-burnings, that are so fatal to the success of any political organization.

Several leading and influential men of the North, have mentioned the name of Sullivan Bullou, Esq., of Woonsocket, as their candidate for the Speakership, Mr. Bullou has been for three years last past, one of the Clerks of the House of Representatives, where he has become thoroughly familiarized with parliamentary usages and the principles of Legislation, and it is almost superfluous for us to refer to his ability as a man, and courtesy as a gentleman, he will be ably and warmly sustained for the Office, by the Northern Counties, and we earnestly hope that our part of the State, will extend to them their assistance and co-operation, so that for once, we may possess that influence in the Legislature which freedom from the trammels of party cliques and would be Providence leaders alone can afford us. We do not intend to speak hastily or unkindly of our Providence friends, they have a perfect right to demand everything and obtain it—(if they can) but if your contributor desires to be conservative and return to "the policy which ruled us anterior to the last five or six years."—We would suggest that we take a still longer leap into the past—to the days of a Hazard, Potter, Robbins and Hunter, whose memories are our household gods, and revisiting again the policy that shaped their ends, of uniting the rural interests of the State as a Commonwealth against the influence of the City of Providence, and then in a generous strife for superiority we may obtain through our comparatively small business but large agricultural interests united, that consideration in State politics, which the population and mercantile prestige of Providence would otherwise monopolize.

Your contributor also states that "a past member of the House from Providence has signified his willingness to accept the office of first clerk of the House." We presume that the new House of Representatives will reduce the number of Clerks by dispensing with the services of an Engrosser, and then the position and merits of Jerome B. Kimball, Esq., present Engrossing Clerk will certainly recommend him strongly for the office of First Clerk, in which case Mr. Francis B. Peckham, Jr., of this city, who we understand is a candidate, should be elected to the Recording Clerkship.

As far as the remaining policy of the incoming administration is concerned, it is difficult for us to prophesy, what circumstances will mould and qualify it,—time alone will develop these and afford us an opportunity to use our efforts to advance or oppose it. We do not pretend to arrogate to ourselves the character of a Seer, and,

"Like a scurvy Politician,
Take to ourselves glass eyes, and try,
To see the things we cannot." H. T.

LOCAL NEWS.

Court of Justices.

May 1st 1857.

Present Presiding Justice Gilpin. Justices Greene and Dennis.

In the complaint State vs Daniel Brown for passing counterfeit money, found probably guilty and required to find surety in the sum of one hundred dollars for his appearance at the May term, Court of Common Pleas for trial, for want of surety, committed to State jail, Van Zandt, City Solicitor for State, Sheffield for Defendant.

In the complaint State vs Daniel Brown for wilful and corrupt forgery, the Court found him probably guilty and required him to find surety in the sum of five hundred dollars for appearance for trial, committed. Van Zandt, Solicitor for State.—Sheffield for Defendant.

The Daniel Brown mentioned in the above report of the Court of Justice, is a young man from Baltimore, who has only been in the city for a few weeks.

A PEDESTRIAN FEAT.—GORTON ANDERSON AGAINST TIME.—Yesterday morning "Gov." Pell and Mr. Gorton Anderson had an argument, while the latter was shaving the former, in regard to pedestrian feats.—"Gov." Pell said that a man could not walk from Anderson's shop to Gov. Lawrence's house in fifteen minutes; Mr. Anderson disputed the point, and a wager was made between the parties on the subject. "Gov." Pell started off for Ochre Point, and some half hour afterwards Mr. Anderson was in motion; he accomplished the feat inside of fifteen minutes, and on his arrival at Ochre Point, was met by "Gov." Pell, who immediately paid over the amount involved. Mr. Anderson returned to the City at a slower pace than he went, and was heard to say that this walking against time was not exactly what it was represented to be. After this performance, it is very certain that he can never be admitted to membership in the "Sit-Still" Engine Company.

We were shown yesterday some very large eggs, which were laid by a hen belonging to John Eldred Esq. They weighed about two ounces each and were all of the same size.

The Newport Musical Society held their weekly rehearsal last evening.

We took a little time yesterday, to examine the new Post Office building—and must say that we were extremely gratified at the evidences of good taste and judgment in its arrangement. The convenience of the public seems to have been particularly consulted, and the gentlemanly P. M. does the honors, with the grace of an experienced hand,—the "Verandah" of yore has been so metamorphosed, that none of its former patrons would recognize in the seemingly building of to-day, the old haunt where "half and half" if nothing worse, was dispensed in bye gone days. It is sanded to imitate brown stone (we abominate imitations) and the old dingy letters that indicated the whereabouts of the *Pierre* office, are resplendent with new gold as Buchananites,—blocks as well as block-heads follow in the wake of a dominant party. Inside, the "lobby" is 32 by 12 feet, very spacious, light, and well arranged. There are three general deliveries, a fourth for Ladies only, two for the sale of stamps, two letter boxes, and by the side of the deliveries, are bells, so that one can call an attendant, without the usual process of thumping. The lobby is grained in oak. The ceiling hard finished, and there are handsome gas fixtures, & a capital clock. The interior arrangements are equally good. There is one of Cottrell's patent letter boxes for the arrangement of transient letters. An Alphabet runs along the top over 20 openings—and one down the left hand side in the same way,—making 676 openings in all. Now in order to find a given letter it is only necessary to look at the top line for the family name, (in the case of the post master) for A—and down the side for the given name, say J. and by running the eye along the "J." until it came to the "A."—you would find the letter for James Atkinson. A more ingenious, compact, convenient device can hardly be imagined, and it is the invention of Albert Cottrell, Esq., of this city.

When we say that the office itself is all that it ought to be, and that the gentlemanly P. M. is a model officer, we shall be perhaps forgiven if we make a reservation from unqualified approval of the whole, by saying that fine as it all is—it does not quite compensate for the loss of editorial shoe leather, consumed in bringing our bulky exchange list from so distant a point.

Mr. W. H. Bliss, has just completed the embellishment of his building on Thames street, which is greatly improved in appearance. Mr. B. is one of our most enterprising men, and exhibits the right spirit in his generous business arrangements.—We trust that he will reap the reward of his enterprise.

We were gratified to observe, yesterday, that the young firm of J. B. Langley & Co., on Thames street have made large additions to their store, so that it is now 93 feet deep. It is well arranged, and convenient for the various departments of their business. Such evidences of prosperity in young, energetic and hard working men, are particularly gratifying.

Yesterday morning we accepted a polite invitation to visit the new country seat of Daniel B. Fering Esq. situated in the suburbs of the city.

The house is massive and substantial and appears to have been built less for outward show, and more for real comfort than many of our suburban palaces. The interior arrangements are of the most convenient character and could hardly be improved upon, and the ornamental work although less showy than in many houses, presents the idea of grandeur. The situation is delightful overlooking Easton's beach and the Ocean. The out buildings, Hot house, Garden and lawn are well placed, and arranged with the utmost good taste.

Railroad Difficulties.

NEWS FROM WASHINGTON.
&c., &c., &c.

Steamer from Europe.
New York, May 1, 1 P. M.
Steamship Africa, from Liverpool 18th ult., is below, and will probably reach her dock about 4 o'clock.

Railroad Difficulties.

BALTIMORE, May 1.
The strike among the freight conductors on the Baltimore and Ohio Railroad, partook of a riotous character yesterday.

Several freight trains were stopped on the road, last evening, by a mob of 100 conductors, who assembled at some distance from the city, and meeting the trains, carried off all the couplings, and drove the engineer and firemen into the woods.

There is great excitement all along the road, the strike being very general throughout the line. Efforts are being made to induce the engineers to join the conspirators.

The company finally refused to make any compromise with the dissatisfied, and will pay them all off and employ new men. The strike occurred in consequence of the company requiring the cars to be sealed, at which the conductors took offence.

SANDUSKY, April 30.
FIRE.—The extensive buildings of the Sandusky Machine Company, and their contents, were burnt this morning, together with several dwelling houses adjoining.—Loss, \$100,000; insurance very small.

SEIZURE ON SUSPICION OF BEING A SLAVE.—The brig Ellen, Capt. Van Vechten for Loando, west coast of Africa, was seized yesterday afternoon by Capt. France of the U. S. Revenue cutter, while on her way to sea, on suspicion of being about to engage in the slave trade. She now lies in the East river under the guns of the cutter.

WASHINGTON, April 30.
The number of land warrants issued during April, under the bounty act of 1835, was over 3,000, requiring nearly half a million of acres. Altogether more than 200,000 warrants have been issued, to satisfy which 25,000,000 of acres are necessary.—Six hundred warrants have been issued under the same act to persons who rendered military or naval service in the revolution, or to their widows, requiring 1,000,000 acres.

J. R. McCay, of Georgia, has been appointed to the El Paso and Fort Yuma wagon road expedition. James R. Annan, of Cumberland, Md., has been appointed disbursing agent to the Fort Kearney, South Pass and Honey Lake wagon road expedition, vice Pratt, resigned.

The President has recognised Ernest Engelbrodt as Consul for the Electorate of Hesse Cassel at St. Louis, Mo.

The Board to examine the various plans for a steam revenue cutter have concluded their labors and scaled their reports, which is to be opened by the Secretary of the Treasury on his return from Georgia.

Mr. Medill, Whitlesey enters upon the duties of the First Comptrolership to-morrow.

AUGUSTA, Ga., April 30.
FIRE.—A fire at Apalachicola to day destroyed the Union warehouse, containing 2,000 bales of cotton, the post office and many stores and dwellings. Loss \$200,000.

NEW ADVERTISEMENTS.

MEDICAL.

A. A. HAYES, M. D.

STATE Assayer of Massachusetts, says: "I have subjected to CHEMICAL ANALYSIS, the Cod Liver Oil prepared by HAZARD & CASWELL, of Newport, R. I. It proves to contain unadulterated the iodine compounds essential to efficacy of action, and in comparison with the first specimen, I have seen of foreign or domestic origin, it takes the highest place."

The importance of having a reliable source, from which this valuable remedy in a state of purity can be obtained, leads me to recommend with confidence, this excellent article. As a remedy for consumption, bronchitis, female debility, asthma, gout, rheumatism, sciatica, eruptions, neuralgia, infantile wasting, emaciation, &c., it has no equal. It ought to be used freely as an element of nutrition in any case where there is decay, however slight, of the constitution. It will restore food to children to robust health, and is the most valuable nutritive agent known. We guarantee every bottle bearing our signature to be perfectly pure and reliable. Address orders for the trade to the manufacturers.

SALES AT AUCTION.

VALUABLE and desirable farm will be sold by public auction on Thursday, May 7th, 1857, at 1 o'clock, p.m., on the premises, if not previously disposed of at private sale. A very valuable farm of thirty-two acres, situated in Portsmouth, R. I., on the westerly road leading from Newport to Bristol ferry, two miles from Bristol ferry, and one mile from Portsmouth grave wharf. Upon the estate is a good orchard, with dwelling-house, barns, and other out-buildings. The farm is under a high state of cultivation, and is a very pleasant and desirable place for a summer residence. It will be sold at private sale on favorable terms; and further information may be obtained on application to
a27 **ALFRED SMITH.**

BY S. A. PARKER

Real Estate.

Will be sold at Public Auction, on Thursday, May 7th, all the right, title and interest that George Almy, F. M. Almy, William H. Almy, and Charles C. Almy, minor children of the late George Almy, late of said Newport, deceased, situated in the city of Newport, bounded north on a drift-way sixty four feet east on land of Leonard Stevens, fifty feet south on land of George R. White, sixty-four feet and west on the land of their mother.

THE Greatest Discovery of the Age.

PROFESSOR WOOD offers for sale a perfect HAIR RESTORATIVE. It is in a short time restores the hair which has become gray prematurely, to its original color—bring it out where it is gone, and arrest when it is falling off—cleanses the head of dandruff and itching—removes all cutaneous eruptions, and renders the scalp perfectly healthy, by restoring the secretory organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots of the hair, but is, in short, a perfect HAIR INVIGORATOR and TONIC.

To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to discard all enlivening and stimulating oils for the hair, and keep always upon the toilet a bottle of the Restorative for occasional use, and we can safely predict, that henceforth all your locks will be upon bald heads. Let the teeth be those of a young man, and the natural fluids be withheld from the hair, and in consequence, becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 20, 1855.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, the change is gradually going on, and I have great hopes that in a short time my hair will be as gray as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours,
D. C. M. RUPP.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and my utter astonishment I found after a few applications that my hair became firmly set and assumed by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours, truly,
HENRY GOODRICH.

Carle, Ill., June 27, 1856.

I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator, United States.

O. J. WOOD & CO., Proprietors, 312 Broad Street, New York, and 114 Market Street, Boston.

Sold by HAZARD & CASWELL.

1000,000 BOTTLES SOLD!

Entered according to Act of Congress in the year 1853, by J. RUSSELL SPALDING, in the Clerk's Office of the District Court of Massachusetts.

All Infringements will be dealt with according to law!

J. RUSSELL SPALDING'S

ROSEMARY.

This great and popular preparation is decidedly one of the nicest and best articles in the world for the

HAIR!

It imparts a richness and brilliancy, cleans ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and all rely upon it.

Prepared by J. RUSSELL SPALDING, Manufacturing Chemist, Principal Depot, 27 Tremont St., opposite the Museum, Boston, Mass., where all orders should be addressed. The fac-simile of his signature is on every bottle of the genuine.

For sale by **R. J. TAYLOR,** and HAZARD & CASWELL.

GARDEN Seeds at **STERNE'S**

Having the articles above enumerated and many others, he respectfully invites the public to call and examine his stock and judge for themselves.

NEWPORT DAILY NEWS.

NOT A BAD JOKE.—Mr. Dana, one of the Editors of the Tribune, made a speech at the Dramatic Dinner, which the Herald, as is its custom with its editorial contemporaries, concealed only from its own readers,—but afterward the Herald abused the aforesaid speech, whereupon the Tribune cites the Herald's report, to show Mr. Dana made no speech at all, and that, hence, the Herald added falsehood to personal abuse.

No man who reads a report of a public meeting in the Herald can be sure that he knows half of what is going on, for its reporters, under order, suppress persons and principles, not liked, from the eyes of the Herald's exclusive readers. Hence it is necessary to take some other Journal to know the news.—*Express.*

AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

Brimfield, Mass., 20th Dec., 1855.
Dr. J. C. Ayer: I do not hesitate to say the best remedy I have ever found for Croup, Whooping Cough, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess a superior virtue for the treatment of these complaints. BREN KNIGHT, M.D.

A. B. MOWLEY, Esq., of Utica, N.Y., writes: "I have used your Cherry Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a cold I could sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BROOKLYN, N.Y.: I will cheerfully certify your Pectoral is the best remedy I possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our friends.

HIRSH CONKLIN, M.D.

AMOS LEE, Esq., of Monterey, Cal., writes, 3d Jan., 1856: "I had a tedious influenza, which confined me in doors six weeks; took many medicines without relief; finally your Cherry Pectoral was sent me, and I cured myself. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicine is the cheapest as well as the best for Croup, Whooping Cough, and all the chest diseases of children, and is, in fact, the best remedy for the Asthma or Phthisis, and Bronchitis."

West Manchester, Pa., Feb. 4, 1856.
SIR: Your Cherry Pectoral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. HANSEY, M.D., of Albany, N.Y., writes, Sept. 8, 1855: "During my practice of many years I have used no other remedy so often as your Cherry Pectoral, giving ease and relief to consumptive patients, or curing cases as are cured."

We weight add volumes of evidence, but the most conclusive proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one has ever been known who cured so many and such dangerous cases as this. Some no human aid can reach; but soon to the Cherry Pectoral afford relief and comfort.

ASTORIA HOUSE, NEW YORK CITY, March 5, 1856.
BORN AYER, LOWELL: I feel it a duty and a pleasure to inform you that your Cherry Pectoral has done for my wife what she had been laboring under for some time. She had been suffering from Croup, Whooping Cough, and the chest diseases of children, and we could procure her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We have been using it for some time, and now she is recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well. Yours with gratitude and regard,
O. H. DODD, S. H. STANLEY, or S. H. STANLEY.

Consumption.

Consumption. Do not despair till you have tried AYER'S Cherry Pectoral. It is made by one of the best medicinal chemists in the world, and its cure all around us speak the high merits of the virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Unsurpassed proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedently upon the esteem of all men. They are safe and pleasant to use, and powerful in curing the general properties of the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purgative of the humors which breed and grow distemper, stimulate sluggish and disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which would have been considered impossible by men of exacting position and character as to the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Constipation, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full stomach, Nausea, indigestion, Morbid Function of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcers and Outbreaks Diseases which require an emollient Medicine, Scrophulous or King's Evil. They are also useful for the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Rheumatism, Prolapsus of the Rectum, and Nervous Irritability, Derangements of the Liver and Kidneys, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers who offer you other pills they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its futuristic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass. Price 25 Cts. Per Box. Five Boxes for \$1.25.

LOTTERIES.

LOTTERIES.—The Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to the Lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that any one can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$40 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans, the Mobile Review, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book.—Write your address plainly, and direct S. SWAN & Co., ATLANTA, GEORGIA. Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R. H. HANCOCK & Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as Lotteries are legalized by special law in that State. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the commission comes to hand. The prizes of tickets vary from \$1.00 to \$20.00. No tickets, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is made.

T. HUBBARD & Co., No. 39 Fayette St., or Box No. 40, Baltimore, Maryland.

No. 10 Franklin street. LANGLEY & BENNETT.

METALLIC BURIAL CASE.

THE subscriber would call the attention of the public to a new and beautiful Metallic Burial Case, of form and shape to accord with the feelings of the bereaved, and furnished in imitation of polished rosewood. These Cases being made air tight, contagion is prevented, and the process of decomposition arrested for a long time. This is of great advantage when it is desirable to preserve the remains of a deceased friend for a considerable time, or to transport the same to a distant place for sepulture, or where it is necessary to unbury for a few months before the final burial. They can be seen at our Furniture Rooms, No. 10 Franklin street. LANGLEY & BENNETT.

COFFIN WARE ROOM.

THE subscribers would inform the public generally, that they keep Rose wood, Mahogany, Black Walnut, White wood, and pine Coffins, Plates, Handles, Robes and other trimmings, constantly on hand. No. 1 Franklin street. LANGLEY & BENNETT.

AMERICAN AND FOREIGN OFFICE

R. H. EDDY, Solicitor of PATENTS (Late Agent of U. S. Patent Office, Washington, under the Act of 1857.) No. 76 STATE, opposite KILBY ST., POST OFFICE.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice given on all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered there elsewhere. The testimonials below will prove that none but the MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate such collection of specifications and decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents From the patent Commissioner August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had any intercourse.

CHAS. MASON, Commissioners of Patents. Dec. 12 1855.

GREAT RUSH AT WILLIAMS' ROOMS. Owing to the rush at my Rooms, and all not having had a chance to get their pictures taken, I will continue to take Ambrotypes on nicer glass and a size larger than any taken in the States for the small sum of 75 cents.

I would advise the public to improve the time now while the snap shot can be taken, and not having had a chance to get a good return for their 75 cents by calling at WILLIAMS' ROOMS.

Ambrotypes, Melanotypes, Pencil portraits, Daguerotypes, and Pencil portraits. All of you party men and women can have a picture of your candidates by calling at the above establishment.

Please Read. If you wish to buy a very good building lot and build a very good house, for a very little money, and have a ready made to occupy on the first day of June, 1857 you will be sure to be accommodated by calling on me.
